SiteWorx Tune

Control and Optimize Your Lighting

Date: _____

Quantity: _____

Company: _____

Project: _____

Part of the SiteWorx® Facility Insight applications suite, **SiteWorx Tune** is an intelligent lighting control application that uses smart sensors and advanced, cloud-based software to maximize energy savings, improve productivity, and maintain safe, comfortable light levels. It brings new levels of control, automation, and savings to your facility's lighting infrastructure.

No matter what SiteWorx application you choose, you can be sure that it's easily connected, completely secure, and simple to expand thanks to the **SiteWorx Wireless Mesh** core technology platform. The wireless mesh provides a robust array of advanced capabilities that keep SiteWorx applications open, connected, scalable, and secure — and easier to use, manage, and evolve. SiteWorx applications can be installed quickly and start delivering meaningful data and actionable insights right out of the box.

Key Features & Benefits

- Simple, highly-configurable, and customizable facility lighting control and energy management application

- Intuitive dashboard displays real-time energy usage and savings data, keeping you informed of energy use and savings

- Uses Intelligent LED Luminaires and advanced lighting sensors and controls to maximize energy savings, improve productivity, and maintain safe, comfortable light levels

- Easily and effectively optimize your lighting system with built-in automation features

- Report your sustainability progress by collecting accurate energy usage data from your facility

- Validate energy project rebates and report on your sustainability goals with energy savings tracking

SiteWorx Tune Features

LIGHTING SYSTEM OPTIMIZATION
- Task Tuning
- Daylight Harvesting
- Advanced dimming capabilities
- Setback (secondary dimming)
  - ▶ Automatic
  - ▶ Scheduled and Timed Duration
  - ▶ Sunrise and Sunset
- Manual and timed override
- Demand Response support
- Fully customizable grouping options
- Coordinated Control options
- Automated, code-compliant emergency lighting testing

DATA TRACKING, ANALYSIS, AND REPORTING
- Energy usage tracking and trending
- Customizable energy load tagging and grouping
- Occupancy tracking and trending
- Multi-interval data reporting
- Lifetime historical data access
- Customizable data visualization and export
- API support for data reporting
- Multiple site visibility from one dashboard
- Multiple site savings and trend rollup
- Energy savings equivalent calculations

ALARMS AND NOTIFICATIONS
- Occupancy detection alarms
- Email and SMS text notifications
- Event log and incident summary
- Incident annotations

SYSTEM MANAGEMENT
- Easy-to-use, color-coded site maps
- Live status map
- Tooltip setting and status indicators
- Remote device commissioning available

USER ACCESS AND MANAGEMENT
- Simple account creation and administration
- User permissions management
- iOS and Android mobile applications
- Remote system access through web from anywhere

NETWORK COMMUNICATION, SYSTEM SECURITY, AND DEVICE MANAGEMENT
- SiteWorx Wireless Mesh Network communication
- AES-128 encrypted device communication
- Hardware-based cryptography
- Over-the-air luminaire and smart device update

Ordering Information

Part Number	Description
SWX-TUNE-2	SiteWorx Tune Subscription, 2 Years
SWX-TUNE-4	SiteWorx Tune Subscription, 4 Years
SWX-TUNE-6	SiteWorx Tune Subscription, 6 Years
SWX-TUNE-8	SiteWorx Tune Subscription, 8 Years
SWX-TUNE-10	SiteWorx Tune Subscription, 10 Years

SiteWorx Facility Insights Application Suite

SiteWorx Sense
Meters, monitors, and controls your key equipment, processes, and environmental conditions.

SiteWorx Tune
Automatically optimizes your lighting and reduces energy costs.

SiteWorx Area
Observes location, occupancy, and activity within your facility.

SiteWorx Alarms
Monitors and notifies you of changes within your facility.

SiteWorx Analyze
Visualizes and reports all types of data to provide you with trends and insights.

SiteWorx Savings
Tracks, organizes and presents meaningful facility information, all in one place.
